Joyce McConnel

Awarded for outstanding  
performance in Highschool

# Stephen Klugherz

Back-End Developer

I am a Junior studying Computer Science at Colorado State University. I am looking to enhance my core competency skills, build a network, and start my career. I am currently searching for an internship or entry level software development position in which to fulfill my goals.

## PROJECTS

### Program Scheduler

- Program scheduler that allows the user to create and add shows to a program schedule and display the schedule with parental controls
- Object Oriented C++ implementation

### In-Line Censor

- In-line censor that allows user to censor a custom word set in the given files, or user input, separated via custom flag options
- C++ Implementation

## EDUCATION

### Colorado State University

B.S., Computer Science

(08/2020 - Present)

Junior
